Siemon Registered Installer Course

Introductory Guide

NetworksCentre.
Training Academy

Welcome to
Networks Centre Training Academy

Thank you for taking an interest in our Siemon Registered Installer Course.

Our newly refurbished Training Academy offers students a comfortable and modern environment to learn in, providing a range of BICSI and manufacturer-led courses available to enrol on.

The Siemon RI Course provides installers with the framework to successfully deploy Siemon cabling systems. The course covers the design and installation methods of telecommunications within commercial buildings.

Delegates will learn about the standardisation of design and installations including: horizontal & backbone cabling pathways, telecommunication spaces, design & installation practices and more.

Participants will learn through practical demonstrations and be introduced to the Siemon cabling family. The one day course ends with a multiple choice exam.

Speak to our Technical Team today about our Siemon RI course. We look forward to your enquiry.

Course Agenda

The Standardisation of Design and Installation Methods of Telecommunications

The Siemon RI Course equips delegates with the knowledge of design and deploying telecommunication systems in commercial buildings. The course enables delegates to gain an advanced understanding of the Siemon RI family of products. It contains essential information and guidelines that must be followed in order to qualify systems for the Siemon Extended Product Warranty.

Part 1: Floor Distribution

+ Horizontal Cabling

+ Building Backbone Cabling

+ Campus Cabling

Part 2: Backbone Cabling Principles

Part 3: Telecommunication Spaces

Part 4: IP Convergence

+ Supporting Innovation and Integration

Part 5: Electromagnetic Compatibility

+ Electrical Safety

+ Earth Bonding

Part 6: Installation Practices and Design Guidelines

Practical: Termination of Z-MAX Cat6 Module

Part 7: Multiple Choice Exam

Course Information

The Siemon Registered Installer accreditation ensures individuals are best equipped to install commercial infrastructure to industry standards. Attendees will:

+ Advance current understandings of telecommunications spaces and distribution systems
+ Understand the Siemon family of network and connectivity products
+ Achieve flexible, cost effective and future-ready systems
+ Meet industry standards set by CENELEC and ISO/TIA
+ Learn about best practice and how to deploy end-to-end Siemon infrastructure systems

WHAT ARE THE BENEFITS OF THE COURSE?

The course provides an essential framework for the standardisation and principles of design telecommunications within commercial buildings.

Essential when applying the Siemon Extended Product Warranty

15 Year Extended Product Warranty

Our Siemon Registered Installer Course enables individuals to qualify for the Siemon 15 Year Product Warranty. The extended product warranty covers:

+ All Siemon Registered Installers deploying end-to-end Siemon branded components & cable
+ Siemon patch cords or equipment cords are covered under the warranty

Programme Schedule

Course Description	Duration	Fee
Siemon RI Training	Full Day (9am - 5pm)	£199 + VAT

Networks Centre
Company Profile

Networks Centre is one of the UK's leading Distributors of end-to-end Network Infrastructure offering a range of services and solutions:

+ Data Centre Solutions

+ Enterprise Networks

+ Industrial Connectivity

+ Intelligent Infrastructure

+ Wireless & Security

+ CISCO Solutions

+ Hire & Lease

+ Training Services

For more information visit www.networkscentre.com or call us on 01403 754 233.

How to find us:

We're 45 minutes from Gatwick Airport and just over an hour away from London.

Our Head Office address is:
Bentley House,
Wiston Business Park,
London Road,
Ashington,
West Sussex,
RH20 3DJ

Travelling by road

Networks Centre is located in Ashington near Pulborough in West Sussex. For Sat Navs use postcode RH20 3DJ.

Travelling by air

We're located 30 minutes from Gatwick Airport. Leave Gatwick on the M23 southwards leaving at Junction 11 onto the A264, then onto the A24 towards Worthing.

Travelling by train

Pulborough has direct links from London Victoria, and Gatwick Airport. Once at Pulborough station, take a short taxi ride to Networks Centre Training Academy.

Random Hall, Slinfold

Random Hall, is located in Slinfold and around 10 minutes from Networks Centre Training Academy.

The Hotel offers free Wifi, Onsite Bar and Restaurant facilities with fresh food prepared daily.

To book, contact Random Hall on:

📞 +44 (0) 1403 790558
